ABSTRACT

The SPEDaily - Special Education Daily Tracking System aims to transform how special education programs manage daily student activities by digitizing manual records. This web-based platform offers teachers an efficient way to track, record, and analyze student data. With secure logins for teachers, automatic progress reports, and parent visibility features, SPEDaily enhances communication, reduces administrative workload, and ensures accurate, real-time tracking of students' progress. Designed using the Agile Model, MySQL, and PHP, the system simplifies documentation and promotes digitalisations in education practices.

Keywords: Special Education, Daily Tracking System, Web-Based System, Student Monitoring.

1.0 INTRODUCTION

- SPEDaily is a web-based system for tracking daily activities of special education students.
- Replaces manual logs to reduce errors and save time.
- Simplifies documentation and improves accessibility.
- Supports inclusive digital education.

2.0 PROBLEM STATEMENT

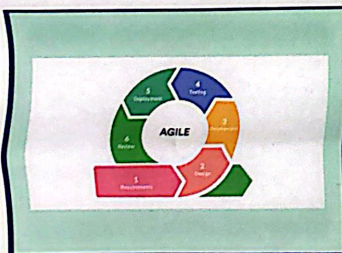

At Sekolah Menengah Kebangsaan Batu 7, teachers currently rely on manual Word documents to generate daily reports for special needs students. The process of reporting involve multi-step, manual process leads to:

- Inefficiency, data loss, and labor-intensive administrative work.
- Difficulty for teachers, parents, and administrators to track student progress accurately.
- Significant time consumption, which also delays the timely sharing of critical student information.

3.0 OBJECTIVE

- To identify requirement for SPEDDaily - Special Education Daily Tracking System
- To design and develop SPEDDaily - Special Education Daily Tracking System
- To conduct testing on SPEDDaily - Special Education Daily Tracking System

4.0 METHODOLOGY

5.0 NOVELTY

- SPEDaily offers a digital approach in managing reporting activities for special education
- Provides a centralized system for teachers, parents, and administrators to track student progress.
- Teachers can create reports, homeroom teachers can review them, and parents can access updates in real-time, all in one secure, easy-to-use platform.
- SPEDaily improve communication between parents and teacher

6.0 SOCIAL BENEFITS

- **Enhanced Parent Engagement :** Parents can view their child's progress in real-time, fostering a collaborative educational environment.
- **Better Educational Outcomes :** Teachers can tailor instruction based on data-driven insights, improving student learning performance.
- **Digital Transformation :** SPEDaily supports the digital transformation of special education and improving accessibility

7.0 PROJECT SIGNIFICANT

- The SPEDaily system makes work easier for special education teachers.
- It is simple to use, saves time, and can be accessed anytime through the internet.
- All information is secure and accurate, and teachers can easily share student progress with parents.
- The system is specially designed for special education, helping track activities and support each student's needs.

8.0 COMMERCIALIZATION

- Will be implemented at Sekolah Menengah Kebangsaan Batu 7,
- SPEDaily has significant potential for expansion and commercialisation in other schools across Malaysia. Approximately 50 schools in Malaysia offer education for students with disabilities.
